We are working hard to offer Servas new generations of leaders. Leaders connected with the experience of the older and with the enthusiasm of the younger Servas people.

Every member that at some point has had the chance to experience and live one of this events know about the power and moving transformation that take part during them.

We have a plus on this opportunity, will be sharing the venue and agenda with the African Regional Meeting. It will be an excellent moment to increase our synergy and outreach. A new line of young African leaders is on the way, you need to be there to take part of this historic moment for Servas.
